GENERAL RELATIVITY AND GRAVITATION—Volume 34, 2002

General Relativity and Gravitation is a journal of studies in general relativity and related topics, published under the auspices of the International Committee on General Relativity and Gravitation.

The journal publishes letters and research papers on the theoretical and experimental aspects of general relativity and related topics; essays and review articles on current research in general relativity and gravitation; news regarding conferences and other enterprises of interest to scientists working in the field; and book reviews.

All manuscripts and editorial correspondence, as well as books for review, should be submitted to the Editor and authors may propose who among the Associate Editors will deal with their paper. All submitted articles are acknowledged and refereed.

The journal homepage, established by the Editor's Office, may be accessed at
http://www.math.uni-potsdam.de/grg/ or http://www.physik.fu-berlin.de/~hjschmi;
the secretary of the Editorial Office, Ms. J. Bonatz, can be reached at grg@rz.uni-potsdam.de
